

e-LinkPro2

HT Series Flash MCU

Characteristics

- Supports the first generation e-Link OCDS/ICP function
- New generation uses a 32-bit master MCU and a USB Type-C interface
- Provides 1.5V(150mA) ~ 5.5V(200mA) to the target board
- Dedicated DuPont wire for OCDS/ICP connection
- USB bridge function(UART/SPI/I²C)
- Emulation software: HT-IDE3000

Connection
