HOLTEK

DALI Workshop V1.1
BM82D8011-1/8021-1/8022-1

Characteristics

- Supports DALI-2 communication protocols and module code generation
- Supports online DALI-2 module parameter setup based on LED driver performance
- Debugging tools: DALI host emulator / module debug board / multiple DALI-2 control modules
- Graphical interface, easy to operate

Block Diagram

Download — Emulation — DALI Workshop V1.1 — Adjust — Demo

H/W : e-Writer Pro / e-Writer 32
S/W : HOPE3000 / HOPE3200

H/W : e-Link / e-Link32 Pro
S/W : HT-IDE3000 / Keil uVision5

DALI-2 Module

DALI Host Emulator

DALI-2 Module
+
DALI Module Debug Board

DALI-2 LED Driver
+
LED Lighting

Applications

DALI-2 DT6, DT8 (Tc) control modules, etc.
