

B02 150W/150Wh Portable Power Station

4S LFP BMS (HT45F8762)

Characteristics

- Same port charge/discharge, high-side MOS control, pre-charge/pre-discharge
- Hardware short circuit protection (output)
- Cell disconnection, over/under voltage, over current, over/under temperature protection, etc.
- Passive balancing 100mA
- Sleep current <10μA
- Integrated software power meter
- Continuous discharge current 40A (Max.)

Block Diagram

Applications

Power stations, power tools, etc.
