

D05 Fire Emergency Indicator ($\leq 1W$)

BA45F3631/3641

Characteristics

- Integrated 60V fire protection dual-line bus communication circuit
- Integrated 3.3V LDO
- Integrated 3-channel LED driver circuit
- Supports LED open circuit/short circuit detection, with short circuit and over temperature protection functions

Applications

Centralized (powered/controlled) emergency indicators, smart evacuation indicators, etc.
